ORGANIZERS

ABOUT GREENOVATION 2024

International Green Building Technology Expo will provide an excellent opportunity for Indian & global players to showcase the very best of technologies in the areas of sustainable buildings developments. Exhibitors will display their innovations- green building products technologies, equipments & machineries to prospective collaborators and policy makers and will be able to connect and network with fellow entrepreneurs. The event will attract overseas exhibitors from America, Germany, Belgium, France, Japan, Korea, Canada, and Sweden, Netherlands and other countries.

GREENOVATION 2024 is a platform to promote technology and build an environment-friendly & resource-saving society and showcase sustainable ideas, technology, equipments and designs to entrepreneurs, innovators, Architects, Builders & Developers, Government representatives, Consultants, Contractors, Lighting Consultants, Town Planners, Corporate, Research and Academic institutions and Multilateral Development institutions at this single meeting point.

Green and smart buildings will reduce pollution and degradation of environment through efficient usage of energy, water and other resources supporting healthy living and improving productivity. The Government of India is actively introducing programmes which promote green and smart technology through their Smart City Mission to improve the quality of urban living. The Government is encouraging industry, architects and service providers to adopt a green, smart and energy efficient technology.

WHY EXHIBIT?

- Increase your brand's recognition.
- Position your organisation as an important player in the green technology space.
- Present your technology to a distinguished international audience.
- Enter new markets and connect with national and international companies.
- Develop new business relationships and gather business leads.
